## 4 Blush Palettes For Wedding Season

### Pretty in Peach

A peach palette is always a good idea for a springtime wedding. The shade is subtle and versatile, which makes it ideal for the special day. Peach-tinted roses, carnations, and peach gerbera daisies will make your wedding ceremony a pretty memorable one. Once you've picked out the best bouquet for the big day, focus your energies on the perfect peach look.

Go light and airy with your makeup, showcasing impactful peach hues in fun ways. New limited-edition Translucent Loose Powder Blushing Beautiful Duo includes two show-stopping, shimmering shade extensions: Peach Flush and Glistening Plum. Flattering for multiple skin tones, the shimmering peachy pink with subtle golden shimmer is ideal for a daytime ceremony. If you're planning an evening event, go a little more glam and opt for the rich, shimmering plum shade. Flattering, statement-making, and just breath taking.

### Bold Beauty

Rich blues and bold hues are meant for a bride who's ready to make a statement. A floral arrangement with flowers like forget-me-nots, irises, and hydrangeas make for a dreamy palette, whether you're tying the knot indoors or outdoors. Continue the bold theme throughout your ceremony by picking beauty products that will stand up to all the elegant and lush shades. Cherry BlushSense Cream Blush will give your cheeks that long-lasting, defined colour for a swoon-worthy look. You'll end up cherishing both the event and all those photo close-ups.

## Pastel Goddess

If you love a soft, pink-hued theme, then a pastel moment is calling your name. Think pretty peonies, pink tulips and dahlias, lining the walls of your ceremony. Dare we say, maybe even a pink gown instead of classic white? It's all about embracing your inner goddess and surrounding yourself with picturesque pastels.

Give those cheeks a touch of subtle colour with Pouty Pink BlushSense Cream Blush. Whether you're having an early-morning ceremony or a sunset beach wedding, the pink tone will be the perfect complement to your ethereal look.

## Bohemian Wedding Babe

Soft whites, shimmering neutrals, and glistening gold vibes. This romantic look is all about bronze hues that will give you the glow-up. Let your hair down and channel your bohemian spirit — it's your special day, after all! Daisies, chrysanthemums, calla lilies, and cream cremone flowers give this wedding theme life. It's all about a more natural style that's simple, feminine, and mesmerizing. Reach for makeup with copper and chestnut tones. Apply Bronze BlushSense Cream Blush for radiant cheeks — it will give you just the right amount of glimmer.
