

# BrowSense Volumizing Brow Gel

Say hello to full and youthful-looking brows!

BrowSense Volumizing Brow Gel is a long-wearing, non-flaking, clear gel to help you achieve full, luscious brows as you define and set them with ease.

This is a multi-purpose product that can be utilized a few ways:

- Apply to bare brows as a clear brow treatment at night to help volumise brows over time.
- Worn on bare brows anytime.
- Apply over BrowSense Long-lasting Brow Building Cream.
- Helps shape, define and set the eyebrow shape.
- Tapered brush evenly coats brow hairs and distributes the product from root to tip to sculpt and shape hairs into place.

## The Science Behind the Product

Long-wearing finish Volumizing Brow Gel not only tames, sets, and defines the shape of brows with ease, it also does double duty as a brow treatment with clinically proven results to help volumise brows over time.

Just like our LashSense VolumeIntense line of products, key to the formulation of Volumizing Brow Gel is the active Capixyl, which helps to volumise and densify the appearance of hair. This complex includes peptides and Red Clover Flower Extract to help boost hair volume.

Additionally, Volumizing Brow Gel includes ingredients that help to nourish and condition brows.

Glycerin is added into the formula to help moisturise brows, and (Panthenol) Vitamin B5 helps to condition them.

## Key Benefits

\*Holds brows in place and helps them to look more shaped and defined throughout the day.

\*Clinically proven to volumise & densify brows.

\*Can be used on bare brows or over BrowSense Long-Lasting Brow Building Cream.

\*Formulated with NO Parabens

\*Formulated with NO Animal By-Products

\*NO Animal Testing

\*Vegan

\*Gluten Free

## Directions For Use

Remove wand from the vial and wipe off any excess product into the neck of the vial. Apply in short strokes in direction of hair growth to define shape. Can be applied on bare brows during anytime, or over BrowSense Long-Lasting Brow Building Cream.

Recommended for twice daily use for best volumising results.
