

Gorgeous Gifting

Beauty Product Picks she Will Love!

It's never too soon to start preparing for the festive gifting season.

Share the beauty love with a special person in your life. We've got gift ideas that will brighten up their day and make them feel extra beautiful. After all, she's worth it!

Fresh and Fabulous Gift Ideas

This is for those who want to feel refreshed and rejuvenated, from head-to-toe! Advanced Hydration Body Lotion is a rich, non-sticky cream that delivers intense moisture and anti-aging benefits. It works to hydrate, firm, and help enhance the skin's barrier, preventing precious moisture from escaping.

Formulated with ceramides, shea butter, and botanical oils and extracts, it helps maintain skin's moisture balance.

Another moisture must-have? A Hand Cream that helps hydrate hands, leaving no greasy residue behind. The result is hands that are smooth, hydrated, and oh-so-soft.

Treat Her to Spa-Like Serenity

Making time for the spa may sometimes seem more like a task, rather than a treat. Give her the spa-like treatment in the comfort of her own home! She can scrub away the day's stressors with Smoothing Body Scrub. An all-over body scrub that helps create soft, smooth, and healthy-looking skin. One of the effective ingredients, Volcanic Ash, exfoliates and helps to draw out impurities and smooth skin's texture.

Or check out the Golden Radiance Peel-Off Mask. This peel-off mask is infused with genuine colloidal gold and soothing botanicals. It works to firm, soften and moisturise your skin to reveal a more radiant and youthful-looking complexion with improved clarity, texture and luminosity.

The Gift of a Gorgeous Glow

Give her a boosted glow she can rock, day or night! Glowify Illuminating Moisture Mist is an airy, light, refreshing mist that gives a sheer, gorgeous glowing finish. Infused with coconut water, a blend of antioxidant superfruits, Sodium Hyaluronate (HA), and SenePlex+, this facial mist helps to deeply hydrate and condition skin, encouraging a youthful, dewy fresh glow. The result is natural-looking luminescence, nothing glimmery or shimmery.

Another glow-up we're loving is the Translucent Loose Powder shades. Our versatile range of soft, light and fluffy powders help you achieve a soft-focus finish that wears comfortably on the skin. Can be worn on bare skin or used to highlight, contour, and set makeup. Available in matte and shimmering shades for a variety of applications. The shimmering shades Peach Flush and Glistening Plum are perfect for everyday cheek colour or a glam up moment.

Shout-out to all the successful women balancing work, family, and everything in between and looking amazing doing it. Here's to celebrating your beauty.
