

Tips and Products We're Thankful for

SheerSense Seasonal Updates: Products We're Thankful for & More!

Gratitude is our attitude! In addition to thanking everyone for supporting women-owned businesses, we're taking this month to reflect with gratitude. Here are ways we stay thankful all month long; plus, the products we've been reaching for again and again in 2021.

Tips to Keep an Attitude of Gratitude

1. **Write it:** Grab some dry erase markers and write on your mirror daily or write freestyle in a journal session. Writing can help you become mindful throughout the day about all there is to be thankful for.
2. **Speak it:** You can meditate or speak aloud all that you are thankful for while driving in your car.
3. **Move it:** Whether it's a morning jog or a conscious smile, getting a rush of healthy endorphins from movement will clear your mind and help you stay in the present, gratefully.
4. **Pay it forward:** Giving back not only helps those who are in need, it can help take your eyes off your own struggles and stay thankful for what you are blessed with.

4 Products We're Thankful For

LipSense

The product that started it all! For liquid lip colour that does not kiss off, smear off, rub off, or budge off, LipSense is the only place we turn. You don't even have to worry about it when wearing a face mask! Some of our favourites in 2021 have been Blu-red, Bella, and limited edition Currant and Earth LipSense.

BrowSense Volumising Brow Gel

Volumising Brow Gel not only tames, sets and defines the shape of brows with ease, it also does double duty as a brow treatment with clinically proven results to help volumise brows. Maintain defined, sculpted brows throughout the day with this product.

MakeSense Colour Correcting Tinted Moisturizer

This smooth cream offers colour correction benefits, skin protection, and sheer-to-medium coverage, perfect for video conferencing looks in a pinch.

Dry Skincare

We're thankful for the innovative anti-aging skincare line that helps provide our skin with optimal hydration! Made with our exclusive SenePlex+ and other formulas, it helps refine texture, even skin tone, and diminish the appearance of fine lines and wrinkles for a revitalised complexion.

Once you incorporate these products into your routine, you'll be grateful too!
