

Conditioning Hair Detangler & Primer with SenePlex+®

Comb through your day more easily!

A lightweight, leave-in detangler and primer that nourishes, softens, and smooths your hair, making it easy to comb through. It helps protect against UV and heat damage, reduces frizz, and primes your hair for styling, restoring natural movement and shine.

Science Behind the Product

Healthy hair can be compromised by daily exposure to environmental stressors, heat styling, and UV rays, leading to damage, dryness, and frizz. The Conditioning Hair Detangler & Primer is formulated with advanced ingredients like Babab Tern NPNP® and Chromaveil™ to target these issues at the root. These ingredients work together to reinforce hair strands, protect against UV damage, and hydrate the hair, making it stronger, smoother, and more manageable. By using this product, you're not just detangling your hair—you're also preparing it for styling while ensuring it stays healthy and protected throughout the day.

Hair can undergo photoaging, or sun damage, which can cause hair to lighten or look dull. This is due to an oxidative attack on the hair's melanosomes, which can bleach the hair through melanin oxidation. The extent of the color change depends on the hair's pigment, with black hair being more photostable than blond hair.

The buildup of minerals from hard water, high pH levels, and chlorine exposure can cause significant damage to your hair, leading to dryness, frizz, dullness, and even increased hair breakage. These elements strip your hair of its natural oils, leaving it tangled, brittle, and more prone to damage.

Conditioning Hair Detangler and Primer with SenePlex+® is essential in combating these effects. It not only helps to smooth and detangle your hair but also provides a protective barrier against these environmental factors, locking in moisture, reducing frizz, and restoring your hair's softness and shine.

Why you need it...

A conditioning detangler and primer is essential for anyone looking to simplify their hair care routine while maintaining healthy, beautiful hair.

It helps to:
